

How You Learn

Last Updated Friday, 02 May 2008

At Dimensions Training Solutions, we feel strongly that the only place to learn the practical skills needed to be a great stylist, is in the commercial salon.

Apprentices spend most of their time in the salon and visit our Training Academy to learn the theory and underpinning knowledge included within the NVQ.

In addition to our team of qualified Hairdressing Trainer/Assessors, we also have a team of Skills For Life Tutors who are available to help those Learners who need assistance with the Key Skills element of the Apprenticeship.
