

## Apprenticeships

Last Updated Monday, 22 March 2010

Apprenticeships have been around for hundreds of years and parents and employers know that an Apprenticeship is by far the best way to train and learn the practical skills required within a career such as Hairdressing. Today's Apprenticeships combine the best of traditional Apprenticeships with the best aspects of modern training systems.

Each Apprentice with Dimensions Training Solutions will be employed in a salon from day one and receive a training wage of at least £95 per week.

Apprenticeships are the Government's flagship vocational training route. Apprentices trained by Dimensions Training Solutions will become tomorrow's technicians, supervisors, salon managers and high flying stylists.

Apprenticeships include Hairdressing NVQ Level 2 and Advanced Apprenticeships Hairdressing NVQ Level 3. All hairdressing Apprenticeships include Key Skills in Communication and Application of Number.
